

FEDERAL MINISTRY *of* HUMANITARIAN AFFAIRS,
DISASTER MANAGEMENT *and* SOCIAL DEVELOPMENT

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK

Coherence | Peace | Stability

2021-2025

Overall Goal

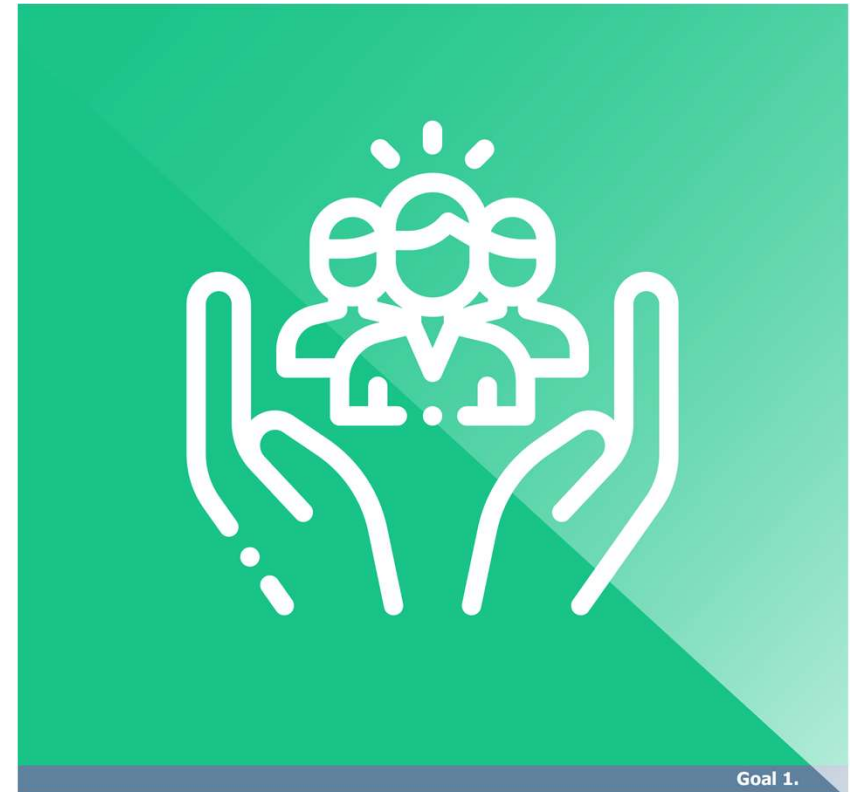

To ensure peace and stability in Nigeria by promoting an innovative and home-grown approach to building capacity and strengthening government and other non-governmental institutions operating within the humanitarian and development sectors from community, state to federal levels to proactively address critical humanitarian and development challenges.

Goal 1.

Improving the Quality of Living Standards for Communities
(Taking Cognizance of Vulnerable Persons and other Persons of Concern, etc.)

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK 2021-2025

Goal 1: Improving the Quality of Living Standards for Communities (Taking Cognizance of Vulnerable Persons and other Persons of Concern, etc.)

Responsible: Multi-agency and multi-track through the Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development (FMHADMSD), the National Assembly (NASS), Humanitarian Response Actors.

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Objective 1: Address the overlapping consequences of vulnerabilities on physical and mental well-being as well as living standards of communities by promoting their protection, safety and dignity, through active community engagement</p> <p>Objective 2: To address the social and developmental needs of communities</p> <p>Objective 3: To facilitate the provision of humanitarian needs for vulnerable communities</p> | <ul style="list-style-type: none">i. Enhance protection processes that promote meaningful and timely access to the well-being of communitiesii. Multi-sectoral and multi-stakeholder interventions to address protection, safety, security and other critical challenges related to wellbeing and living standardsiii. Provide integrated and coordinated projectsiv. Provide assistance to vulnerable communities and ensure the realization of their rights and improved access to justice. |
| <p>Objective 4: Support restoration of basic services and local community governance for sustainability in communities of return</p> | <ul style="list-style-type: none">i. Integrating early recovery, including livelihood and social cohesion support, safety, and economic security of communities through multi-sectoral and multi-stakeholder projectsii. Increase access to infrastructure and essential social servicesiii. Supporting the restoration of essential services and the local community governance, administration and servicesiv. Inclusiveness and peaceful co-existence among communities to encourage the creation of conditions for safe, durable solutionsv. Enhance freedom of movement, early warning, recovery, and resilience capacity of communities to shocksvi. Strengthen access to healthcare, health system recovery and build humanitarian and development linkages |

Goal 2.

Enhancing Disaster Preparedness, Prevention, Mitigation and Strengthening Disaster Risk Information, Governance and Infrastructure.

Goal 2.

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK 2021-2025

Goal 2: Enhancing Disaster Preparedness, Prevention, Mitigation and Strengthening Disaster Risk Information, Governance and Infrastructure.

Responsible: Multi-agency and multi-track through the Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development (FMHADMSD), the National Assembly (NASS), Humanitarian Response

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Objective 1: Reducing or eliminating the potential impact or damage that could be caused by hazards on health, lives, property, infrastructure, environment and services.</p> <p>Objective 2: Mobilizing relevant stakeholders for effective disaster preparedness, prevention and mitigation activities.</p> <p>Objective 3: Implementing integrated and appropriate measures in harnessing resources towards disaster prevention, preparedness and mitigation</p> <p>Objective 4: Developing and sustaining national, state, local and community based early warning systems.</p> <p>Objective 5: Strengthening disaster resilience by developing information and communication technology (ICT) and information on risks, improving the quality of disaster risk information through the consolidation of risk profiles and their integration with local data in the Nigerian communities.</p> | <p>i. Measures taken in advance to ensure effective response to the impact of disasters; timely and effective early warning; and the evacuation of people and property from threatened locations.</p> <p>ii. Actions that provide 'outright avoidance' of the adverse impact of natural and human induced disasters.</p> <p>iii. Structural and non-structural measures that limit the adverse impact of natural; which include but are not limited to- gully and wind erosion, flood, desert encroachment, rising sea levels; as well as human-induced disasters on vulnerable areas, communities and households. These efforts shall target people who are at risk, by reducing their vulnerability to specific hazards and threats.</p> <p>iv. Identifying and leveraging existing early warning systems to alert areas, communities, households and individuals of impending or imminent significant disaster events.</p> <p>v. Sharing risk and vulnerability assessments (RVAs) between stakeholders, stakeholder collaboration and implementation of constructive vertical feedback mechanism on risk information</p> |

Goal 2. Continued

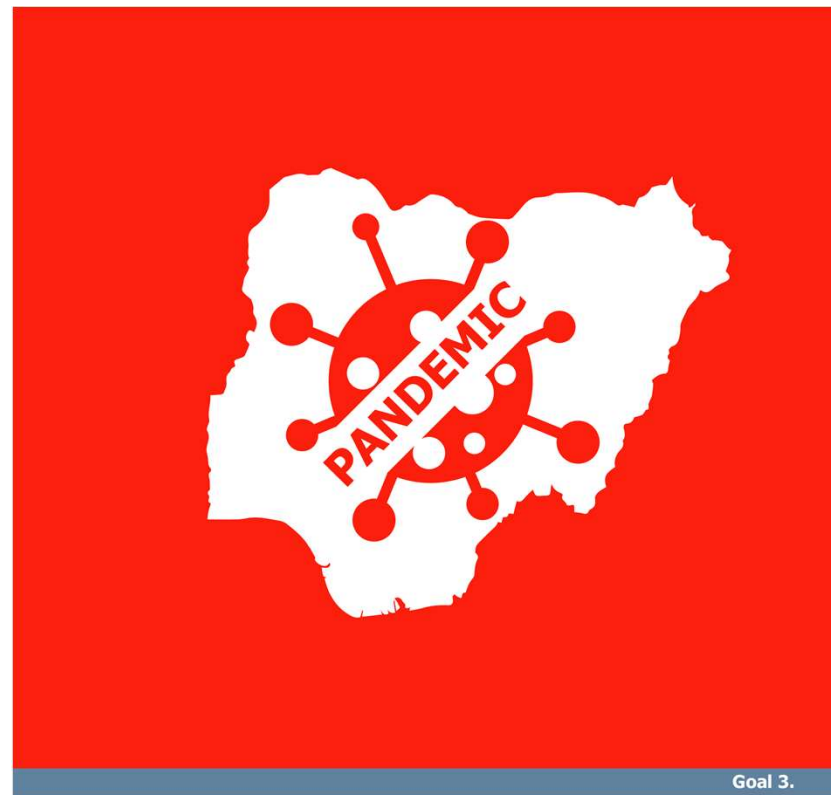

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Objective 6: Strengthening access to risk information by further engaging the Nigerian Government and key stakeholders in the revision of national risk profiles and their mainstreaming of findings in national policies and strategies</p> <p>Objective 7: Strengthening disaster risk governance at local and state levels by ensuring decentralization of disaster management, exploring the potential role of the governments (local, state and federal) in implementing disaster risk reduction initiatives and establishing the local governments as key role player in achieving society's resilience to disasters</p> <p>Objective 8: To achieve a Sustainable DRR financing mechanism</p> <p>Objective 9: Integrating DRR into national development plans and formulating long-term DRR plans</p> <p>Objective 10: Encouraging private sector to invest in DRR</p> | <p>vi. Building a synergy between the Local and State Governments because they have a key role to play in disaster risk reduction initiatives as they are rooted at the ground level where disasters occur and are more close to the local community.</p> <p>vii. Combining the effort of Local Governments and State Governments with a proper coordination and by the Federal Government</p> <p>viii. Empowering the Local Government as a key priority to encourage democratic decision-making at the local level in order to ensure effective implementation of disaster risk reduction measures as a need recognized by The United Nations International Strategy for Disaster Reduction (*ISDR) in 2010.</p> <p>ix. Educing risk to acceptable levels through structural and non-structural investments</p> <p>x. Managing the residual risk through disaster preparedness measures, such as early warning systems and financing arrangements for disaster relief and recovery</p> <p>xi. Encourage private sector investment in DRR infrastructure</p> |

Goal 3.

Coordinated National Strategy to Prepare for, and Respond to a National Pandemic/Disaster.

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK 2021-2025

Goal 3: Coordinated National Strategy to Prepare for, and Respond to a National Pandemic/Disaster.

Responsible: Federal Ministry of Health (FMoH), Federal Ministry of Environment, Federal Ministry of Information, National Emergency Management Agency (NEMA), State Emergency Management Agency (SEMA) and Local Emergency Management Agency (LEMA) and other sectoral agencies.

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective 1: Contribute to an effective national and local level response to a pandemic | i. Conduct periodic review and maintenance of the National Pandemic Preparedness and Response Plan. |
| Objective 2: Reduce pandemic-related morbidity and mortality | ii. Activation of the Nigeria National Emergency Management Agency (NEMA) Operations Centre |
| Objective 3: Minimize disruption of critical social, economic and medical services during a pandemic | iii. Surveillance and Laboratory - Provide pandemic surveillance advisories to the health community, including hospitals and other healthcare providers; Monitor the health alert networks and other sources of pandemic information. |
| Objective 4: Mitigate pandemic-related impacts on critical infrastructure | iv. Triage and Patient Care - Issue any changes to guidelines on the pandemic precautions for emergency departments and hospitals. |
| Objective 5: Facilitate post-pandemic recovery operations | v. Infection Control Measures: Increase efforts to educate public about infection control measures; and issue the pandemic precaution guidelines to emergency departments, hospitals, businesses, airlines, schools/universities, day-care facilities, jails/prisons, and other stakeholders, as well as the public. |

Goal 3. Continued

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <ul style="list-style-type: none">vi. Anti-viral Acquisition and Use: Activate existing pharmaceutical SOGs and follow the procedures outlined in this plan to acquire and distribute antiviral medications, as requiredvii. Conduct mass fatalities planning for pandemic response operationsviii. Prepare educational and training materials on psychosocial issues for distribution to healthcare employees and pandemic “first responders” during a pandemic.ix. Coordinate with mass care partners in planning for pandemic related mass care requirements.x. Develop a communications plan for use during pandemic response operations |

Goal 4.

Affected Communities Receive
Timely and Holistic Humanitarian
Response.

Goal 4: Affected Communities Receive Timely and Holistic Humanitarian Response.

Responsible: Multi-agency and multi-track through the Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development (FMHADMSD), the National Assembly (NASS), Humanitarian Response Actors

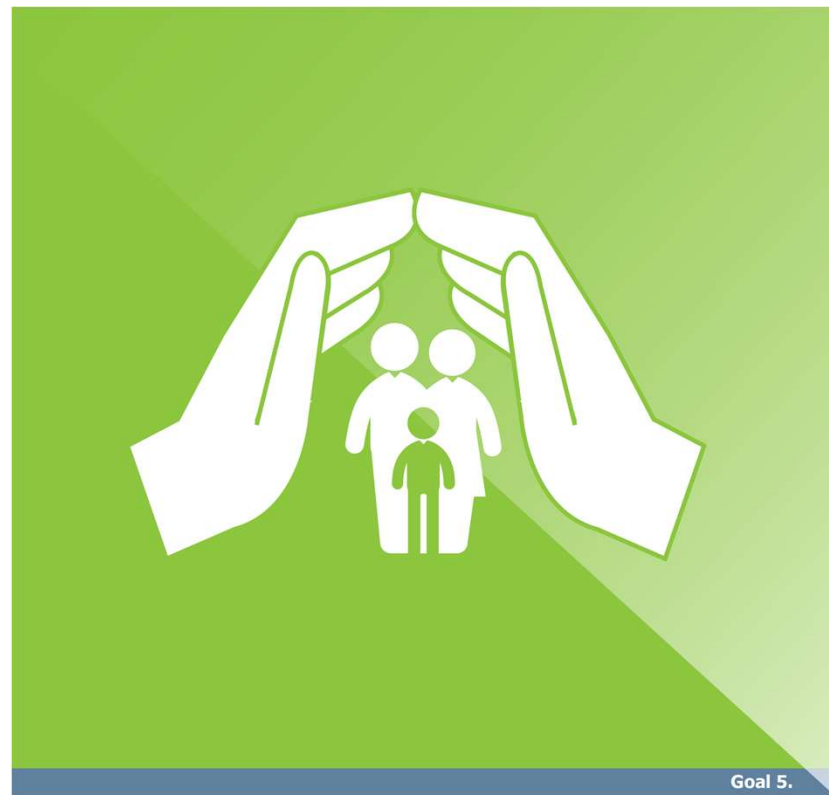

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Objective 1: Strengthen timely access to humanitarian assistance to vulnerable persons and affected areas</p> <p>Objective 2: Ensure safe, dignified, and fundamental human rights-focused assistance</p> <p>Objective 3: Deliver integrated and coordinated life-saving health, food security, nutrition, education, protection, shelter & NFIs, and WASH assistance to vulnerable persons and affected areas</p> <p>Objective 4: To deliver integrated humanitarian assistance to 2.4 Million vulnerable persons and over 640 affected areas in the three worst-affected states</p> | <ol style="list-style-type: none">1. Prioritize the most vulnerable groups with emergency life-saving water, food, shelter, NFIs, health, education, psychosocial support, and protection services to improve their physical and mental wellbeing.2. Establishing, expanding and strengthening the monitoring of the outbreak of communicable diseases, prevention and response systems to enhance a timely response, and reduce the risk of morbidity and mortality.3. Provision of essential shelter and non-food items for vulnerable and affected communities4. Provision of clean water and sanitation services |

Goal 5.

Securing, Stabilizing and
Recovery of Communities.

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK 2021-2025

Goal 5: Securing, Stabilizing and Recovery of Communities.

Responsible: Multi-agency and multi-track through the Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development, the National Assembly, Humanitarian response actors, Federal Ministry of Education, Health, Works and Housing, Water Resources, Agriculture and Rural Development, Subnational, Private sector, Small house Farmer, Cooperatives and other sectoral Agencies

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective 1: Restoration, rehabilitation and reconstruction of the physical infrastructure | <ul style="list-style-type: none">i. Effective energy sector recovery to constitute a mix of public private sector recovery interventions among others.ii. Removing hazardous waste, demining/ deactivating IEDs, managing debris and solid waste and restoring the natural environment- waste to wealthiii. Making available high-quality telecom services, including broadband and mobile phone servicesiv. Promotion of mobility of goods, services and people. |
| Objective 2: Recovery of the social services | <ul style="list-style-type: none">i. Reconstruction and recovery of the education sector ensuring access to essential health and nutrition services for target groups, and restoring critical health system functionsii. Reconstruction of damaged and destroyed housing units based on impacts and social needsiii. Institutional arrangements for establishing and scaling-up of social protection programmesiv. Repair and rehabilitation of damaged water supply and sewage infrastructurev. Increase capacity as well as access to potable water supply and sanitation through institutional support and capacity development |

Goal 5. Continued

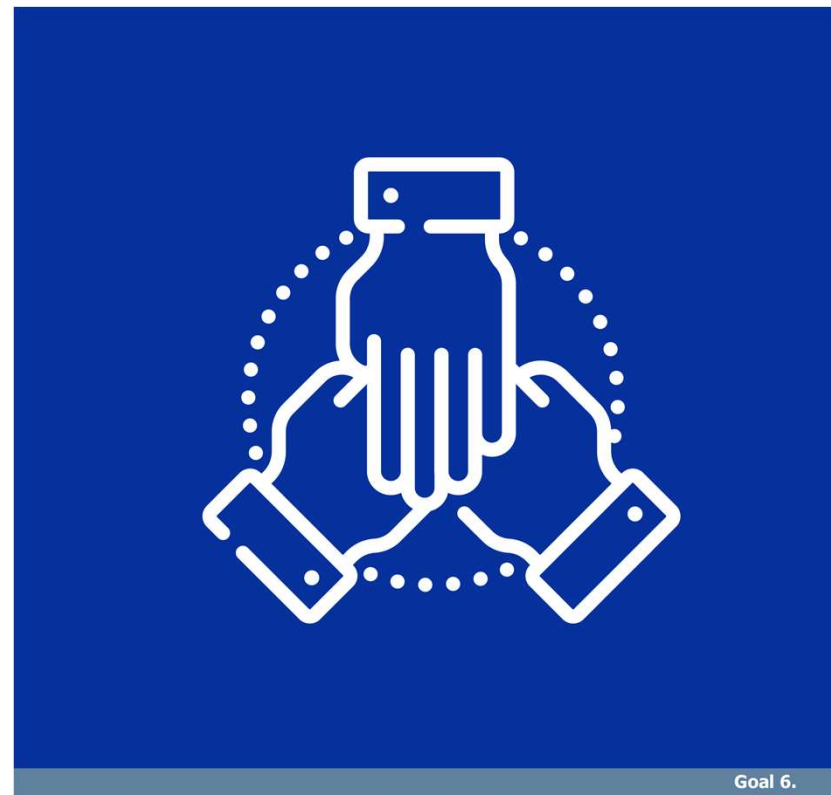

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|-----------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective 3: Recovery of the productive sector to enhance food security and sustainable livelihood | <ul style="list-style-type: none">i. Preventing violent conflict and interpersonal violence by addressing the drivers of fragility and immediate—to long-term risks—such as climate change, demographic shocks, gender inequality, patterns of discrimination, economic and social exclusion, and perceptions of grievances and injustice – and strengthening the sources of resilience and peace before tensions turn into full-blown crises.ii. Remaining engaged during conflict and crisis situations to preserve hard-won development gains, protect essential institutions, build resilience, and be ready for future recovery.iii. Helping communities transition out of fragility, by promoting approaches that can renew the social contract between citizens and the state, foster a healthy local private sector, and strengthen the legitimacy and capacity of core institutions.iv. Mitigating the spill overs of FCV to support communities and the most vulnerable and marginalized communities that are impacted by cross-border crises, such as forced displacement or shocks resulting from famines, pandemics, and climate and environmental challenges. |
| Objective 4: Establishment of a local stabilization council at LGA level | <ul style="list-style-type: none">i. To serve as local government administrators down to ward levelii. Proactively engage CSOs, traditional and religious leaders |

Goal 6.

Better Management of Migration.

Goal 6.

Goal 6: Better Management of Migration.

Responsible: Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development (FMHADMSD), humanitarian response actors, multi-sectoral agencies etc.

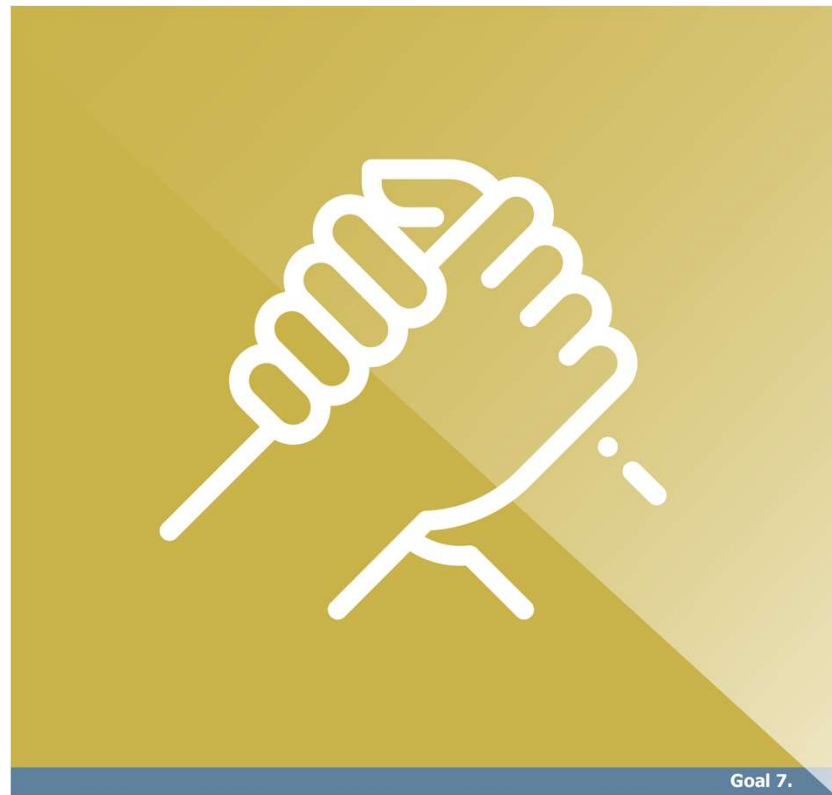

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Objective 1: Strengthen governance of migration for safe orderly and regular migration</p> <p>Objective 2: Enhance the provision of accurate and timely information at all stages of migration.</p> <p>Objective 3: Improve the migration coordination mechanism at the National, State and Local levels</p> | <p>i. Ensuring public enlightenment campaign at the state and local government levels</p> <p>ii. Facilitate decentralization of migration dialogues in the states and local level.</p> |

Goal 7.

Building Resilience for Fragility, Conflict and Violence (FCV).

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK 2021-2025

Goal 7: Building Resilience for Fragility, Conflict and Violence (FCV).

Responsible: Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development, Office of the National Security Adviser, Security Agencies and United Nations

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| To enhance the effectiveness to support in addressing the drivers and impacts of FCV and strengthening their resilience, especially for their most vulnerable and marginalized populations | <ol style="list-style-type: none">1. Preventing violent conflict and interpersonal violence by addressing the drivers of fragility and immediate—to long-term risks—such as climate change, demographic shocks, gender inequality, patterns of discrimination, economic and social exclusion, and perceptions of grievances and injustice – and strengthening the sources of resilience and peace before tensions turn into full-blown crises.2. Remaining engaged during conflict and crisis situations to preserve hard-won development gains, protect essential institutions, build resilience, and be ready for future recovery.3. Helping communities transition out of fragility, by promoting approaches that can renew the social contract between citizens and the state, foster a healthy local private sector, and strengthen the legitimacy and capacity of core institutions.4. Mitigating the spill overs of FCV to support communities and the most vulnerable and marginalized communities that are impacted by cross-border crises, such as forced displacement or shocks resulting from famines, pandemics, and climate and environmental challenges. |

Goal 8.

Peace Making, Peacebuilding and Sustainable Peace.

Goal 8.

NATIONAL HUMANITARIAN DEVELOPMENT PEACE FRAMEWORK 2021-2025

Goal 8: Peace Making, Peacebuilding and Sustainable Peace.

Responsible: Humanitarian response actors, multi-agency and multi-track through the Federal Ministry of Humanitarian Affairs, Disaster Management and Social Development and the National Assembly

| OBJECTIVES | STRATEGIC APPROACHES AND ACTIONS |
|---------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective 1: Improve human security, reconciliation, and violence prevention | <ul style="list-style-type: none">i. De-mining and Mines/IED awareness campaigns within communitiesii. Liaise with relevant Agencies to conduct DRRR including arms recoveryiii. Establishment of peace building funds; conduct community trainings, awareness and support programsiv. Capacity building and development of frameworks for peace building, and violence prevention |
| Objective 2: Contribute to the safe, voluntary, and dignified return and resettlement of vulnerable persons | <ul style="list-style-type: none">i. Risk analysis and rapid provision of services to meet displaced populations' needsii. Risk analysis, framework and programs to ensure safe, orderly and voluntary return or resettlement of displaced persons |
| Objective 3: Enhance government accountability and citizens' engagement in service delivery | <ul style="list-style-type: none">i. Comprehensive capacity development among Local and State Governments to strengthen participation, accountability and transparencyii. Awareness raising and public campaigns for citizens' engagement |
| Objective 4: Increase equity in the provision of social services and empowerment programs for self- reliance | <ul style="list-style-type: none">i. Construction/repair of service delivery infrastructureii. Ensuring access to existing service delivery methods, and expansion of service delivery to meet needsiii. Skills training to boost empowerment opportunitiesiv. Economic growth to boost empowerment opportunities |
